SAMPAT – Unified Enterprise Suite for Asset, Service & Productivity Excellence

AMS – Asset Management Suite

Smarter Asset Governance. Simplified Control.

Centralized control for IT, Software, Non-IT like Machinery, Furniture, Bio-medical, and any kind of movable enterprise assets.

Gain full lifecycle visibility, automated compliance, and actionable intelligence – all from one dashboard.

Key Highlights

- Unified dashboard for all asset types
- Auto asset discovery & real-time tracking
- Missing asset & hardware/software change alerts
- Audit verification & compliance assurance
- Automated depreciation evaluation & renewal alerts
- Whitelist/Blacklist software governance
- Barcode/QR tracking with AMC & warranty visibility
- Rich analytics and audit-ready reports

Competitive Edge

Real-time asset
intelligence

Cross-department
integration

Fully configurable
workflows

Simple, intuitive,
and reliable

SDS – Smart Service Desk

Automated Support. Exceptional Experience.

Simplify Service Delivery with intelligent ticketing, SLA automation, and actionable insights.

Designed for enterprises that value efficiency, accountability, and transparency.

Key Highlights

- End-to-end ticket automation
- Multi-channel creation: Email, Portal, Web Forms, WhatsApp & Social Platforms
- SLA-based tracking, escalation & response control
- Role-based access & department visibility
- Root cause analysis & recurring task scheduling
- User feedback & satisfaction surveys

Competitive Edge

- ✓ Enterprise-grade ITIL framework
- ✓ Customizable workflows
- ✓ Real-time performance visibility
- ✓ 24×7 operational insights

PM – End-User Productivity Monitoring

Transparency that Drives Performance.

Monitor, analyse, and enhance workforce performance with clarity and fairness. Empower teams through data-driven insights and accountability.

Key Highlights

- Real-time team & user dashboards
- App & web usage tracking with productivity classification
- Configurable modes – consent, stealth, or limited
- Offline data sync for remote teams
- Activity tracking, screenshots & RDP/file monitoring

Competitive Edge

- ✓ Real-time workforce analytics
- ✓ Custom dashboards & reports
- ✓ Privacy-conscious monitoring
- ✓ Balanced visibility for better focus
